

SCANDAL MURTY

PROFESSIONAL SUMMARY

Highly meticulous and results-driven professional with 7 years of combined experience in technical support, inventory management, and detailed record-keeping, specializing in operational logistics for complex materials. Proven ability to interpret technical schematics and manage electronic component flow. Adept at leveraging database systems (Excel) for stringent inventory control, documentation, and ensuring operational readiness for technical teams.

EXPERIENCE

SENIOR PRODUCTION OPERATOR **GENERAL DYNAMICS MISSION SYSTEMS**

Apr 2023 - Current

- Performed precise bonding and laminating of PWBs and advanced electronic components for critical space missions.
- Achieved 100% compliance with quality standards, reducing errors and ensuring safe, functional flight components.
- Used Solumina to review schematics, manage instructions, and track materials and components during manufacturing.
- Created an automated material inventory system, increasing accuracy and saving tracking time.

INBOUND ASSOCIATE

TARGET

Aug 2022 - Mar 2023

- Maintained accurate inventory control throughout the supply chain to support business operations.
- Unloaded and sorted merchandise trailers efficiently in a team setting.
- Stocked and organized new merchandise to ensure easy access and accurate inventory.

CAR WASH/FUEL STATION SUPERVISOR **HERTZ**

Feb 2014 - Sep 2021

- Reported carwash chemical and supply inventory to management, ensuring adequate stock and smooth operations.
- Led the training and onboarding of all new hires on service procedures, safety protocols, and operational standards.
- Oversaw fuel and propane delivery services, demonstrating reliable handling and detailed logistical coordination.

ABOUT ME

My interest in computing is rooted in an appreciation for creativity, logic, and structure. This is reflected in my enthusiasm for data analysis, hands-on PC assembly, 3D design innovation, and investigating advancements in artificial intelligence. I am especially motivated by opportunities to utilize data to improve efficiency in everyday activities.

EDUCATION

MESA COMMUNITY COLLEGE

Aug 2024 – May 2026

Associate in Applied Science
Data Analytics

3.9 GPA

Deans List Fall 2024

Deans List Spring 2025

SKILLS

Expertise in operational logistics, technical support, and data management, anchored by proficiency in schematic interpretation, inventory control, and advanced Excel.

CERTIFICATES

Google Data Analyst Certification

Aug 2024

- Completed the 8 course Professional Data Analyst Certificate
- **Core Data Analysis Process:** Understanding how to ask the right questions, prepare data, find patterns, and share insights.
- **Essential Tools:** Gaining hands-on experience with **spreadsheets** (like Google Sheets or Excel), **SQL** for database querying, **Tableau** for data visualization, and an introduction to **R programming**.
- **Practical Skills:** Developing problem-solving, critical thinking, and communication abilities to present data-driven recommendations.
